

Santander Cash Nexus

APP MOBILE

The new **Santander Cash Nexus** app for iOS and Android allows you to view your daily position anywhere and anytime. This is a quick and easy-to-use application which displays your consolidated balance in the currency selected on the homepage, intraday information and your payment authorisation. With your Santander Cash Nexus Portal credentials, you can access any of your account balances, including a breakdown of subtotal amounts by country, currency and account. You can also use the Portal tool to keep up-to-date with alerts and notifications.

Our solutions for you

Visibility

The Santander Cash Nexus app allows you to view and monitor accounts with a worldwide consolidated position. And the Portal tool enables you to monitor your accounts via real-time messages.

Flexibility

The Santander Cash Nexus app offers you the flexibility of consolidating your balances by currency and of easily identifying the information by geographical area.

Autonomy

You can use the app to personalise your service and select the exchange rate you wish to use to show the consolidated information.

Functionalities available:

Consolidate position

Alerts and notifications

Account balances

Account consolidation currency of your selection

Subtotal per country / currency

Six languages are available: English, Spanish, Portuguese, French, Italian and German
